Subject: The Willamette River Clean-up

It is time that our once beautiful and clean Willamette River was cleaned up and the many corporate polluters over the years be held accountable. It is important for the health of our river and the fish and wildlife. Many people are moving here because of our natural beauty. It is unconscionable that this jewel, our beloved river, once so pristine, that winds through our city of bridges, something that defines our city, has become a dumping ground and so unnatural. It really is a disgrace! Let us clean it up for all our sakes, for future generations, and for the sake our wildlife.
